

## Application

The EvoLo® 013 machine mounts are universal elements for vibration isolation in a wide range of industrial applications. For example machine mounts are used for mounting of generating sets, machine tools, textile machines, printing machines, pumps, ventilators and washing machines etc. This is the most used bearing for industrial machinery.

## Technical Data

Maximum load 45° shore	1700N	Article No. 101021041
Maximum load 60° shore	3200N	Article No. 101021042
Maximum load 70° shore	5000N	Article No. 101021043

Optional end limiters  
Optional height adjustment

Metal parts: mild steel, corrosion protected by electrolytic galvanization  
Rubber part: highest quality natural rubber

## Advantages

- ✓ Excellent vertical stability
- ✓ The use of natural rubber provides best possible vibration isolation.
- ✓ Easy installation for skid mounted equipment
- ✓ Small height required
